

TCCC AFTER ACTION REPORT (AAR) COMPLETION AND SUBMISSION

NOTE: The TCCC AAR form allows for more detailed and complete documentation of prehospital care provided as soon as possible after the mission is completed. If care could not be documented by the first responder on a DD Form 1380 TCCC Casualty Card at the point of care, because of lack of time or other constraints, the Combat Medic/Corpsman can use the AAR form to document care retrospectively. Regardless of whether or not the DD Form 1380 TCCC Casualty Card was completed in the field, the TCCC AAR should be submitted according to these instructions.

NOTE: A TCCC AAR form can be completed on a preprinted hard copy or completed online electronically, depending on the connectivity and resources available.

01

OBTAIN a preprinted hard copy TCCC AAR form or locate the electronic form by logging onto the Joint Trauma System (JTS) homepage at https://jts.amedd.army.mil/

- (a) Follow the "Documents" hyperlink at the top of the home page.
- (b) Select "Forms & After Action Report Submission".
- (c) Select "POI TCCC AAR form" under "Tactical Combat Casualty Care (TCCC)".

NOTE: It might be easier to download the form, depending on your connectivity.

02

FILL IN casualty, assessment, and treatment data as completely as possible, going from left to right and top to bottom.

03

SAVE the TCCC AAR form (either hard-copy or electronic form) for submission to JTS as soon as possible (within 72 hours) in accordance with unit standard operating procedures.
