TRAINER NAME: _____ ROSTER#: _____

INSTRUCTION: This Skills Assessment Checklist should be used by a trainer to grade a student's ability to perform the individual SKILLS for the TCCC Combat Lifesaver (TCCC-CLS) Course. A trainer should use this form when performing the optional individual skills assessment associated with completing a skills station. To successfully demonstrate proficiency, the student should "PASS (P)" all the critical tasks (marked as "C") on the checklist.

This checklist may also be used as a teaching tool at the skills station if the trainer chooses to grade students only during the culminating exercise tactical trauma assessment. Grading during the culminating exercise is mandatory for successful course completion, while grading individual skills during the skill stations is optional. Please note: There is also a Skills Assessment Checklist designed for performing a skills assessment as part of a culminating event, so the trainer can test all the required skills at once as part of a scenario-driven culminating exercise.

PERFORMANCE STEPS		1 st Attempt		2 nd Attempt	
ADMINISTRATION OF THE COMBAT WOUND MEDICATION PACK (CWMP)		Р	F	P	F
 Checked to ensure that the casualty had no known drug allergies to the medications from the CWMP (ask the casualty or locate their red dog tag). 					
2. Administered all pills (pain medication and antibiotics) from the CWMP with water, if the casualty had pain, severe combat wounds, and was conscious and able to swallow.					
3. Administered all pills (pain medication and antibiotics) from the CWMP with water, if the casualty had an eye injury and was conscious and able to swallow.					
4. Documented all findings and treatments on a DD Form 1380 TCCC Casualty Card and attached it to the casualty.					
Demonstrated TCCC Proficiency: Yes No
